AERA CUT

Multicoloured unpatterned broadloom and tiles with velours surface in 12 colours

ANKER

They are unique: spaces in which we like to be and in which our work seems to go by itself. And yet they have one thing in common. That certain something that creates this special sense of space.

AERA CUT creates such an ambience. The tufted carpet with velours surface fits perfectly into the respective interior design. And this modest and effective at the same time.

The multi-coloured unpatterned flooring is available in 12 stylish colours and impresses as broadloom with textile backs as well as carpet tile with Bitumen backing. For the optimal feel-good atmosphere, it is manufactured using the SOLUTION DYED process from sustainable Econyl fiber, which guarantees both durability and colour fastness.
