There are things that have a very special charisma. Something extraordinary and fascinating at the same time. Often you can't even tell what it is. And yet it always pulls you under its spell.

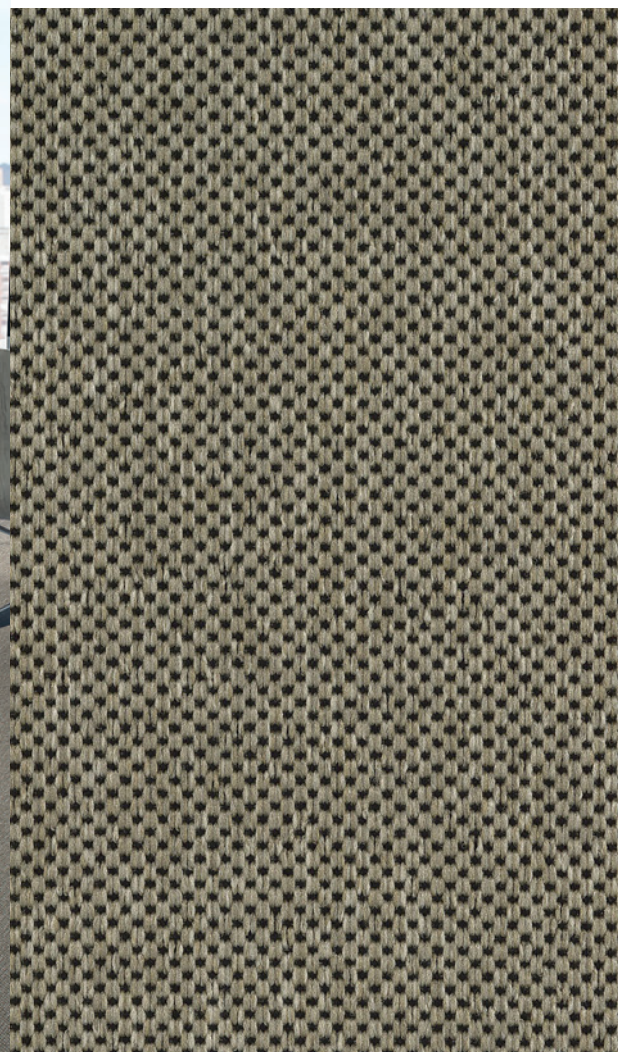

FLAT is a woven carpet that has just such a charisma. Somehow puristic, minimalistic, urban and almost technical. But always elegant, timeless and absolutely stylish. This is made possible by the straight design in the combination of plain fabric and the high-quality loop pile surface. The different colours and designs stand for variety and create creative freedom in terms of interior design. Thanks to SonicWave back, the multicoloured unpatterned broadloom always ensures a first-class appearance also acoustically.
