SUN

Multicolour plain broadloom with loop pile surface in 16 colours.

It is a warming and calming moment at the same time when the landscape is sinking into a sea of sunrays. And when the light seems to be changing from second to second, creating new effects and impressions over and over again. SUN also stands for such diverse moments with surprising combinations in terms of interior design. With a finely structured, pearly loop, continuously providing new interesting shades of colour with its grained surface effect.

SUN is available in 16 attractive colours as tufted broadloom. Thanks to the solution-dyed technology, the ECONYL® yarn is completely colourfast, environmentally friendly in production and sustainable in use.
